# Vegetable and Flower Seed

At 1 ct. per Pkt. Postpaid.

You will notice that the descriptions have been left off from this list for lack of space, but can be found in any seed catalogue as they are all standard kinds.

## The Quality.

I guarantee that all of the seed sent out by me shall be of the very best quality and are sure to grow and give you a good crop. The seed is all tested before it leaves my store and anything that does not show a 75 per cent. germination goes into the fire, so any person sending me an order may rest assured of getting the best seed produced.

All seed is mailed postpaid at prices given and special prices will be given on anything wanted in quantities.

In remitting for seed, kindly send Money Order, as I get a large quantity of stamps and have to sell them at a discount and so to all sending Money Order with their order, I will send my "Money Order Collection of Flower Seed" FREE.

Make all orders payable to
